SMART TRAVELS PRODUCTION TEAM BIO

For 20 years, Small World Productions has produced substantial, content-driven travel series for public television. The Seattle-based company has produced more than 140 half-hour episodes and four pledge specials that are popular with public television programmers and viewers. This body of work translates into more than 165 home video and DVD titles. SWP production credits include: *Smart Travels—Europe with Rudy Maxa Series I, II, III, IV and V*; *Travels in Europe with Rick Steves Series I, II, III and IV*; *Travels in Mexico and the Caribbean with Shari Belafonte*; *America's Historic Trails with Tom Bodett*; *Best Travels in Europe* and *Best of the Mediterranean*. SWP programs have helped to raise tens-of-millions of dollars in viewer contributions to public television stations. Small World's awards include CINE Golden Eagles, national Telly Awards, International Communicator Awards and Columbus International Film Festival Awards.

SWP partners Patricia Larson, Sandra Nisbet and John Givens created the series *Smart Travels—Pacific Rim with Rudy Maxa*. In addition to their body of work with SWP, Ms. Larson and Ms. Nisbet have advanced degrees in theater, and an extensive background in history, play-writing, international travel and college teaching. CEO Givens, the series executive producer, edits five episodes in each series. He has been producing, directing and editing public television programs for more than 35 years. Givens was honored with an APT MVP Award in 2000. Larson and Nisbet have won several CINE Golden Eagles each, as well as numerous Telly Awards and a Columbus International Film Festival Award.

For *Smart Travels*, Small World is joined by a team of award-winning photographers, editors and producer/writers. Producer Patty Conroy has won several Telly Awards and five CINE Golden Eagles for her work with Small World, the Boeing Company and the University of Washington. Conroy's *Smart Travels* episode on *Norway* was honored with an Emmy Award. Producer Susan McNally is a Seattle based producer/writer/director and winner of several Telly Awards and two CINE Golden Eagles. A *Smart Travels Series III* episode produced by Ms. McNally was a finalist in the New York Film Festival. Award-winning photographer Tom Speer of Seattle has shot more than 110 travel episodes for Small World. His other national credits include *The Miracle Planet*, *Fire on the Rim*, *Death: The Trip of a Lifetime*, *Bill Nye the Science Guy*, *The Frugal Gourmet* and *The NewsHour*. Editor David Ris brings unique skills and knowledge of high-definition television production to the project. Mr. Ris has edited more than six dozen travel episodes for SWP, including Emmy, Telly and CINE Award winners.

**CUTTING-EDGE DIGITAL TELEVISION:
Smart Travels Series V
continues Public Television's First HDTV series**

On April 1, 2006, Small World Productions, KCTS/Seattle and American Public Television (APT) will release 13 new episodes of *Smart Travels—Pacific Rim with Rudy Maxa*, continuing public television's first high-definition television series. All 65 programs in the series were photographed and edited in Sony's 1080i HDCam format. The result is a visually stunning, cutting-edge, digital television series.

APT will feed *Smart Travels V* on the HD satellite transponder to public TV stations nationwide. Many stations will broadcast the series in both HDTV and NTSC, or standard television. The NTSC version will be "letterboxed" to show the wide-screen images of the HDTV production. "Viewers watching in NTSC will see images that are noticeably brighter and clearer than they'd expect," according to series executive producer John Givens of Small World Productions. Digitally mastered stereo audio is featured on both the HDTV and NTSC versions of the series.

"Best of all, the stunning beauty of the Pacific Rim and the luscious detail of HDTV are a ready-made match, sure to be a hit with public television programmers and viewers for years to come," according to Givens. Public radio's original *Savvy Traveler*,™ Rudy Maxa, hosts *Smart Travels—Pacific Rim*.

More than 175 public television stations are now broadcasting in HDTV while they continue to transmit in standard-definition NTSC as well. All TV stations will be required to convert to digital transmitters within the next few years. APT also distributes the standard-definition version of *Smart Travels* nationally. Major corporate support for production and distribution of *Smart Travels* is provided by Expedia.com, the world's largest online travel company.

HDTV is the wide-screen, digital television standard adopted by the FCC several years ago. It provides brilliant images and incredible detail with nearly four times the resolution of standard television. HDTV is the first major revision of television's transmission format since its inception in the 1940s. For many viewers, the change from NTSC to HDTV will be as dramatic as the change from black and white to color in the 60s.

Six DVDs and six VHS home videos of the series are available from Small World. Two or three geographically related episodes are combined on each 60 or 90-minute tape. DVDs are 100+ minutes and include extra value bonuses and consumer travel advice from series host Rudy Maxa. DVDs and home videos may be ordered by calling 800.866.7425 or online at www.SmartTravels.tv. *Smart Travels—Pacific Rim VI*—in HD, of course—is in the works and seeking corporate underwriting.
